FINANCE AND COMMERCE.

WASHINGTON, Saturday Evening, July 24.
There have been some very important events in
commercial and stock circles during the week, both at home and on the other side. The activity which has prevailed in all the branches of trade throughout the East is unprecedented as regarded in comparison with any previous week this year. This is the result of the foreign demand for breada one is one recent of the profign demand for bread-stuffs, and, while grain circles and the Grangers icel it in the West, it is beginning to exert a uni-versal influence throughout the country, and is bringing into employment many heretofore idle hands.

hands.

A great variety of views are taken of the attitude of the wheat market by the newspapers and business men of the country. While the transactions saver strengly of unjustifiable speculation, there is no doubt in the minds of those who have examined into the extent of the damages to forcign crops and the quantity in granaries, that the demand of the past two weeks will continue during the year, and the stight stagnation which set in the latter part of the week, and changed the tens of the will speculation, is only temporary, and will be resumed. The shipments of wheat from New York this week aggregated 2,000,000 bushels. The shipments for the same time last year amounted to only 200,000 bushels. As the London Stock Exchange has made an innovation and stopped into the speculation, and as prices are lower for wheat in Chicago than in London, after adding the cest of transportation, and as the new American yield may come below the estimate, it seems that prices will be sustained or further advanced.

The large amount of funds at New York which is early available to Wall-street men does not seem to have been used this week to withstand the influences of the grain movement upon gold. The result was that a further decline was established, with a slight raily at the close of the week. Opening at 114%, the highest point reached was 114%, the the decline was each changed.

In stocks the course of the prominent list to-day has been upward. At the close the market was strong, active and higher, and the best prices of the week were made for some shares.

The following are the closing rates for stocks, telegraphed from the New York Stock Exchange to Sherman & Grant:

We condense the following from Messrs. Trank
k Stone's special communication:
"The chief influence in the stock market of late
has been the recent rise in breadstmis, which has
in some instances stimulated an advance in the
quotations for our Western railroad stocks.
"In railroad stocks the Chicago and Northwestern and the Uhicago, Milwaukse and St. Paul
have been the most prominent, and an advance is
recorded in both stocks; and the report of the
Northwestern road just published is universally
considered as being better than could be expected. considered as being better than could be expected.

"Even Eric, C., C. and I. C. and Wabash show a decided improvement over last week.

"State bonds have been dull, but generally well sustained. Tennessees have been firmly held at 50 to 51, with but few offered for sale. The non-payment of the July interest has been satisfactorily explained by the Governor of Tennessee. Nothing will be done in the matter until the next meeting of the Legislature. There has been more inquiry for railroad bonds, with higher prices for several of the leading issues."

An examination of the New York bank statement shows that \$1,448,900 were gained in reserve. An examination of the New York bank statement shows that \$1,445,900 were gained in reserve, increasing the excess above the 25 per cent, law to \$29,502,450.

The sub-Treasury balances at New York to-day were: Gold, \$33,573,340; currency, \$64,470,770.

The Sub-Treasurer paid out \$70,000 on account of interest, and \$54,000 for bonds. Customs receipts, \$237,006. Commercial.

In the District markets wheat has advanced steadily during the week under the stimulus of a heavy demand from Georgetown millers, who are manufacturing large quantities of flour in anticipation of an active trade, to be brought about by the continuation of the movement toward Liver-pool. As yet there has been no advance in flours bere, except on extras and supers, by Washington men, since the recent excitement in breadstuffs, but prices are very firm. The receipts of wheat at Georgetown are much The receipts of wheat at treorgetown are much larger this week, and all offerings have readily brought quotations.
